

Standard with every cover

Standard black locking safety strap

Heavy duty black nylon webbing riveted to the upper fabric and liner material. High strength black nylon buckle with locking feature to prevent unwanted entry. Standard for all covers and required for ASTM safety designation. 6 - 9.5" adjustable.

Standard black web handle

Same black nylon webbing riveted to the upper fabric and liner material. Sewn under the skirt when applicable.

Optional upgrades

Invisible handles

Custom handles fabricated from the same material of the spa skin. Low profile blends in aesthetically with the color of the spa cover overall. Fully riveted and secured. **\$65 up to four handles**

Gazebo handles

Strap handles mounted inside the hinge. Convenient for moving the spa cover while using the spa.

\$30 for two handles

Optional buckle

Attaches to spa cover

Anchors to coping or deck surrounding spa

Hex removal tool

Brass Concrete Anchor Kit

Uses standard pool cover anchors. Secures the strap firmly to your pool deck using the provided hex installation/removal tool. When released, the anchor is flush with the pool deck. **\$85/Set of 4**

Release buckle

Attaches to spa cover

Anchors to coping or deck surrounding spa

Concrete anchor kit

Includes the standard black nylon strap with a modified non-locking in-line buckle. At the end of the strap is a black nylon strap grommet which attaches to a set of concrete anchors with black machine screws. **\$50/Set of 4**

Hurricane strap

Strap kit includes 12 feet of two inch wide UV-resistant strapping. Stainless steel hardware for maximum strength. This strap can be mounted to the spa cabinet or platform decking using the ASTM anchors shown above. Available in black, or custom matching colors for +\$25. **\$85**
